EXPERIENCE

GCash

July - December 2025

Machine Learning Engineering Intern

Bonifacio Global City, Taguig

- Engineered an LLM-powered internal dashboard ("base sizer") for the marketing team to estimate target audience sizes from natural language demographic inputs.
- Designed an AI pipeline to dissect user input, create structured schemas from extracted descriptions, and return accurate user base size metrics.
- Refactored a chronically failing Apache Airflow DAG responsible for processing Kevel ad-serving data, resolving daily execution errors and restoring pipeline reliability.
- Rewrote data extraction and transformation logic to ensure the automated daily reporting system consistently delivered accurate email updates to stakeholders.

Pasig City Science High School

Nov. 2023 - Jan. 2025

ML Research Consultant

Maybunga, Pasig

- Mentored two high school research teams on machine learning and AI projects; one for UP Alchemes' Research Fair 2024 and one for a senior high school capstone.
- Instructed students in the use of machine learning techniques, the organization of research methods, and the interpretation of model performance.
- Guided one team to present their study, "Trick or Treat: Using Machine Learning with Python to Detect Scam SMS Messages", and qualified for the final defense round of UP Alchemes' Research Fair 2024.

LEADERSHIP AND ACTIVITIES

UP Algo++

Oct. 2023 - Present

Member | Competitive Programmer

Diliman, Quezon City

- Took part in mock competitive programming contests to improve algorithmic problem-solving skills.
- Contributed to the development of lecture materials for onboarding new members in competitive programming fundamentals, specifically for math-related topics.
- Ranked 9th out of 20 finalists in the prestigious Algolympics 2025, wherein the twenty finalists were selected from top-performing teams across the country.

UP Gaming Guild

Nov. 2024 - Present

Member | Player

Diliman, Quezon City

- Played at the varsity level in national tournaments, working with the team to sharpen our strategies, make fast decisions, and tackle challenges on the spot.
- Worked with a team of seven players to analyze performance metrics and adjust strategies, steadily improving the group's performance.
- Developed leadership and communication skills as assistant to the team captain while coordinating practice schedules, refining in-game strategies, and optimizing team performance.

EDUCATION

University of the Philippines Diliman

Expected 2028

Bachelor of Science in Electronics Engineering

Diliman, Quezon City

- UP ACM Algolympics 2025 - Final Round 9th Placer

Pasig City Science High School

High School Diploma

July 2023
Maybunga, Pasig

- SAT: 1370
- 2023 DOST-SEI Youth Excellence in Science Awardee.
- 2023 Best in Research: Computational Research Category.
- 2023 Programmer of the Year.
- 2022 Gawad PCSHS Student Achievement Award in Mathematics.

SKILLS

Languages : Python, C/C++

Tools & Frameworks : Git, PySpark, Apache Airflow, DSPy, CUDA
